My dear Azeem.

Recently I have received a letter from you. In this letter, you have told me about your future profession. From your letter, I have learnt that you want to be an engineer. This is a noble profession. Engineers serve the nation a lot. You have also inquired about my future profession. As far as my plan is concerned, I want to be a doctor. As you know I have always liked this profession. I want to serve my nation as a doctor. There are certain doctors who work for money. Most of them have no sentiments for the poor. I want to serve the unhappy and the sick. I would play, my role in the welfare of my country. To get my aim realized, I am working day and night. I am sure that I would get admission to a medical college.

May both of us succeed in realizing our scared mission. Ameen!

Yours sincerely,

X.Y.Z.
